

WCOOC: BNY Mellon Speed Networking Feedback

ARMSTRONG WOLFE™
Women in the COO Community

Samantha Parker Northern Trust

Did you find the event useful and enjoyable?

The event was engaging and enjoyable.

Did the event prove to be a valuable platform for networking and knowledge exchange?

I have made plans to meet with several of the attendees that I met. They seemed keen to hear about my perspectives. As a mature employee, I believe there may be more benefit to the other attendees in the follow up networking than to myself as felt it was aimed at a more junior demographic due to the attendees' tenure in the industry. That said, some of the takeaways were memorable and I have shared them on with others since the event (i.e. Rob Knight talking about 'PRP': purpose, resilience, perception).

Have your impressions of BNY Mellon undergone any evolution because of your participation?

The BNY team who organised the event did a great job. Found Zoe King particularly engaged and keen to network after the event.

Would you consider participating in a future Speed Networking event?

Yes- I would attend the more senior version, I know some colleagues have attended previously.

Delphine Rech-Guitel TPI CAP

Did you find the event useful and enjoyable?

I really enjoyed the speed networking session both listening to the speakers who were very interesting and meeting Women COO in the financial sector in London. I would be pleased to join your next speaker or speed networking event.

Jasmin Mirsal BlackRock

Did you find the event useful and enjoyable?

The event was useful, and I made some interesting connections during the drinks and the speed networking. BNY Mellon did a great job hosting the event and I would certainly be happy to attend a similar event in the future.

Emma Abamu Bank of America

Did you find the event useful and enjoyable?

Yes, the event was very good. I thought the short meetings were useful in learning high value information from people. We were able to discuss important topics and it felt less intimidating compared to regular networking event.

Have your impressions of BNY Mellon undergone any evolution because of your participation?

I enjoyed the BNY offices, but cannot comment further.

Would you consider participating in a future Speed Networking event?

Yes, I would attend again.

Grace Abikoye Bank of America

Did you find the event useful and enjoyable?

I found the networking event insightful and enjoyable. It was good to meet people with a range of working experience.

Have your impressions of BNY Mellon undergone any evolution because of your participation?

Yes, my impressions of BNY Mellon has evolved.

Would you consider participating in a future Speed Networking event?

I would love to participate in more networking sessions. I will suggest attendees have more time allocated for each networking session.

Eugenie Artaud De La Ferriere Amundi

Did you find the event useful and enjoyable?

I thought it was a very nice event, really enjoyed both speakers .

Would you consider participating in a future Speed Networking event?

Enjoyed the networking a lot and would do it again but felt it was a bit fast to really be able to exchange contact details although one person has indeed reached out to me on LinkedIn.

Megan Mulholland JP Morgan

Did you find the event useful and enjoyable?

Yes, I thought it was a great event. The format allowed for networking without it feeling forced or awkward.

Did the event prove to be a valuable platform for networking and knowledge exchange?

Definitely.

Have your impressions of BNY Mellon undergone any evolution because of your participation?

No change but I thought the event was very well hosted and organised.

Would you consider participating in a future Speed Networking event?

Yes.
